

# OUR SERVICE DEPARTMENT

FROM QUICK REPAIRS TO FULL-SCALE REBUILDS

DyTerra is a full-service supplier to fertilizer and propane industries across Western Canada. Our service departments in Manitoba and Saskatchewan can service, repair and rebuild your existing equipment or provide new equipment and custom solutions to fit your growing needs. With experience in liquid, granular, NH<sub>3</sub>, propane and meter work, we work both in our shop and in the field.

## WHY CHOOSE DYTERRA?

As a full-service partner offering everything from small parts to full-scale facilities, we can provide the solution you need, stock the parts, and service your products and equipment for many years to come. With a strong team backed by several years of industry experience, we have what it takes to find the right solution, we're committed to safety, and we ensure we're always current on industry regulations.

Our certifications speak for themselves:

- Transport Canada  
Certificate of Registration (CSA B620)
- R-Stamp  
Certificate of Authorization
- Measurement Canada  
Certificate of Designation / Authorized Service Provider
- COR Certified  
Approved Safety Program
- ISNetworkworld  
Approved Safety Program
- CWB Certified  
W47.1 - Division 2

With DyTerra, you can count on a partnership based on our core values of honesty, relationships, knowledge and value.
